

MEETING MINUTES

FREMONT ENERGY COMMITTEE

TOWN OF FREMONT

October 14, 2014

Attendees

Gene Cordes

Cindy Crane

Cheryl Rowell

- SAU83 Wood Boiler Letter
 - The FEC was asked to draft a letter of support for a wood boiler feasibility project for the Ellis School. The SAU has been working with an organization that does feasibility studies. Gene drafted the attached memo for this purpose. It was agreed by all to sign the letter and send it to the SAU.

- Town Hall:
 - Proposals to replace the HVAC system at the town hall were received. Some discussion followed about where the town/Selectmen should proceed with this project. There was a lot of variation in the bids/proposals which needed to include some ductwork and distribution system.
 - It is not clear if the system should be updated using one of these companies or whether a separate proposal for an engineering study should be done.
 - Gene will speak with the other Selectmen about the proposals.

- Electricity RFP bids:
 - Bids are due on October 15.
 - Bidders need to be notified by Dec. 1st.
 - The bids will include the town and school.

- Solar Garden:
 - Tentative meeting on Oct. 28th.

Next meeting will be October 28, 2014 at 7 PM at the Fremont Town Hall first floor.
