

Fremont Conservation Commission  
Fremont Town Hall  
Fremont, NH

**Present:** Chair Leanne Miner, Vice Chair Bill Knee, Members Rich Cooper and Pat deBeer

**Also Present:** Rockingham Planning Commission Members Robert Pruyne, Theresa Walker

CALL TO ORDER: Ms. Miner called the meeting to order at 2:00 pm.

Members of the Conservation Commission and Rockingham Planning Commission (RPC) met in the Fremont Town Hall basement level meeting room to discuss updates to the Natural Resources Inventory (NRI), a chapter of the Town of Fremont Master Plan

Mr. Pruyne distributed draft maps for discussion. He provided an overview of each map and answered questions from the group. Several comments and suggestions were made and recorded by Ms. Walker for further revision. Some items discussed will be included in the text. Ms. Walker proposed that the text be reduced and included in the maps for ease of reference. Text for the NRI would be shortened significantly to include various tables and goals.

Additional discussion and comments on the mapping and NRI text/goals were as follows:

A table will be used to summarize Open Space and Easements.

The Commission would like to review parcels that are in the Current Use Program. A query should be feasible by one of the Town's Assessors through Vision.

Map 8 – Open Space – Add a Table of parcels with Conservation Easements and/or Open Space, Town Forest, etc

Map 13 – List Tree Farms in Fremont.

Map 5 – Surface Water – Add names and locations of brooks. Bill will follow up with Matthew Thomas for this information. This is out of scope for RPC. Consider adding table with Brook name and local street name to document.

The group adjourned at 4pm with the action item to consolidate comments on the maps and text for submittal to make revisions for draft to the Planning Board.

Respectfully submitted,

Leanne Miner  
Land Use Administrative Assistant
