## ***INDEPENDENT AUDITOR'S REPORT***

To the Members of the Board of Selectmen  
Town of Fremont  
Fremont, New Hampshire

We have audited the accompanying financial statements of the governmental activities, major fund, and aggregate remaining fund information of the Town of Fremont as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unmodified and adverse audit opinions.

### **Summary of Opinions**

<u>Opinion Unit</u>	<u>Type of Opinion</u>
Governmental Activities	Adverse
General Fund	Unmodified
Aggregate Remaining Fund Information	Unmodified

### ***Basis for Adverse Opinion on Governmental Activities***

As discussed in Note 1-B to the financial statements, management has not recorded the long-term costs of retirement health care costs and obligations for other postemployment benefits for the single employer plan in the governmental activities. Accounting principles generally accepted in the United States of America require that those costs be recorded, which would increase the liabilities, decrease the net position and increase the expenses of the governmental activities. The amount by which this departure would affect the liabilities, net position, and expenses on the governmental activities is not readily determinable.

***Town of Fremont  
Independent Auditor's Report***

***Adverse Opinion***

In our opinion, because of the significance of the matters described in the "Basis for Adverse Opinion on Governmental Activities" paragraph, the financial statements referred to above do not present fairly the financial position of the government-wide financial statements of the Town of Fremont, as of December 31, 2018, or the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Unmodified Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the major fund and aggregate remaining fund information of the Town of Fremont as of December 31, 2018, and the respective changes in financial position and the respective budgetary comparison for the general for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Change in Accounting Principle***

As discussed in Note 2-C to the financial statements, in fiscal year 2018 the Town adopted new accounting guidance Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinions are modified with respect to this matter, as it pertains to the Town's single employer OPEB plan.

***Other Matters***

**Management's Discussion and Analysis** – Management has omitted a Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

**Required Supplementary Information** – Accounting principles generally accepted in the United States of America require that the following be presented to supplement the basic financial statements:

- Schedule of the Town's Proportionate Share of Net Pension Liability,
- Schedule of Town Contributions – Pensions,
- Schedule of the Town's Proportionate Share of the Net Other Postemployment Benefits Liability,
- Schedule of Town Contributions – Other Postemployment Benefits, and
- Notes to the Required Supplementary Information

Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Other Information** – Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Fremont's basic financial statements. The combining and individual fund schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Net change in fund balances of governmental funds (Exhibit C-3)		\$ (130,616)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures, while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. Capital outlay expenditures exceeded depreciation expense in the current year, as follows:		
Capitalized capital outlay	\$ 864,476	
Depreciation expense	<u>(545,995)</u>

**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Town of Fremont, New Hampshire (the Town), have been prepared in conformity with U.S. Generally Accepted Accounting Principles (GAAP) for governmental units as prescribed by the Governmental Accounting Standards Board (GASB) and other authoritative sources.

In 2018 the Town implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which changed the way other postemployment benefit (OPEB) liabilities and related expenses are recorded. See Note 1-M for further information on this pronouncement.

The more significant of the Town's accounting policies are described below.

***1-A Reporting Entity***

The Town of Fremont is a municipal corporation governed by an elected 3-member Board of Selectmen. In evaluating how to define the Town for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity is made by applying the criteria set forth by the GASB. The Town has no component units to include in its reporting entity.

***1-B Basis of Accounting, and Measurement Focus***

The accounts of the Town are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

***Government-wide Financial Statements*** – The Town's government-wide financial statements include a Statement of Net Position and a Statement of Activities. These statements present summaries of governmental activities for the Town accompanied by a total column. Fiduciary activities of the Town are not included in these statements.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the Town's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including capital assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows. As in the Statement of Net Position the Town has not recorded other postemployment benefit expense of the Town's single employer plan in this statement. The types of transactions reported as program revenues for the Town are reported in two categories: 1) charges for services and 2) operating grants and contributions.

Certain eliminations have been made to interfund activities, payables, and receivables. All internal balances in the Statement of Net Position have been eliminated.

***Governmental Fund Financial Statements*** – Include a balance sheet and a Statement of Revenues, Expenditures, and Changes in Fund Balances for all major governmental funds and nonmajor funds aggregated. An accompanying statement is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the government-wide financial statements. The Town has presented all major funds that met those qualifications.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the *modified accrual basis* of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town generally considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, with the exception of reimbursement-based grants, which use a period of one year. Property taxes, licenses and permits, intergovernmental revenue, and interest associated with the current fiscal period are all considered to

**TOWN OF FREMONT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met. All other revenue items are considered to be measurable and available only when cash is received by the government.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

The Town reports the following major governmental fund:

**General Fund** – is the Town’s primary operating fund. The general fund accounts for all financial resources except those required to be accounted for in another fund. The primary revenue sources include property taxes, State grants and motor vehicle permit fees. The primary expenditures are for general government, public safety, highways and streets, sanitation, culture and recreation, debt service and capital outlay. Under GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, guidance the expendable trust funds are consolidated in the general fund.

Additionally, the Town reports the following fund types:

**Special Revenue Funds** – are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

**Permanent Fund** – is used to record activity of legal trusts for which the interest on the corpus provides funds for the Town’s cemetery operations.

All the governmental funds not meeting the criteria established for major funds are presented in the other governmental column of the fund financial statements. The Town reports seven non-major governmental funds.

**Fiduciary Fund Financial Statements** – Include a Statement of Net Position and a Statement of Changes in Net Position. The Town’s fiduciary funds are private purpose trust and agency funds, which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. These funds are accounted for on a spending or “economic resources” measurement focus and the accrual basis of accounting.

The Town also reports the following fiduciary funds:

**Private Purpose Trust Fund** – are used to report trust arrangements, other than pension and investment trusts, under which principal and income benefit individuals, private organizations, or other governments.

**Agency Fund** – is custodial in nature and do not involve the measurement of operating results. An agency fund is used to account for assets held on behalf of outside parties, including other governments.

### ***1-C Cash and Cash Equivalents***

The Town considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Deposits with financial institutions consist primarily of demand deposits and savings accounts. A cash pool is maintained that is available for use by all funds. Each fund’s portion of this pool is reflected on the combined financial statements under the caption “cash and cash equivalents.”

The treasurer is required to deposit such moneys in solvent banks in state or the Public Deposit Investment Pool pursuant to New Hampshire RSA 383:22. Funds may be deposited in banks outside of the state if such banks pledge and deliver to a third party custodial bank or the Federal Reserve Bank, collateral security for such deposits, United States government or government agency obligations or obligations to the State of New Hampshire in value at least equal to the amount of the deposit in each case.

### ***1-D Investments***

State statutes place certain limitations on the nature of deposits and investments available as follows:

New Hampshire law authorizes the Town to invest in the following type of obligations:

- Obligations of the United States government,
- The public deposit investment pool established pursuant to RSA 383:22,

**TOWN OF FREMONT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

- Savings bank deposits,
- Certificates of deposit and repurchase agreements of banks incorporated under the laws of the State of New Hampshire or in banks recognized by the State treasurer.

Any person who directly or indirectly receives any such funds or moneys for deposit or for investment in securities of any kind shall, prior to acceptance of such funds, make available at the time of such deposit or investment an option to have such funds secured by collateral having a value at least equal to the amount of such funds. Such collateral shall be segregated for the exclusive benefit of the Town. Only securities defined by the bank commissioner as provided by rules adopted pursuant to RSA 386:57 shall be eligible to be pledged as collateral.

**Fair Value Measurements of Investments** – In accordance with GASB Statement No. 72, *Fair Value Measurement and Application*, except for investments measured using net asset value (NAV) as a practical expedient to estimate fair value, the Town categorizes the fair value measurements of its investments within the fair value hierarchy established by US GAAP. The fair value hierarchy categorizes the inputs to valuation techniques used for fair value measurement into three levels as follows:

**Level 1** – Inputs reflect quoted prices (unadjusted) in active markets for identical assets or liabilities that the Town has the ability to access at the measurement date.

**Level 2** – Inputs are other than quoted prices that are observable for the assets or liabilities, either directly or indirectly, including inputs in markets that are not considered to be active. Because they most often are priced on the basis of transactions involving similar but not identical securities or do not trade with sufficient frequency, certain directly held fixed income securities are categorized in Level 2.

**Level 3** – Unobservable inputs based on the best information available, using assumptions in determining the fair value of investments and derivative financial instruments.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. In certain instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, is the level in the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. Investments are reported at fair value. If an investment is held directly by the Town and an active market with quoted prices exists, such as for domestic equity securities, the market price of an identical security is used to report fair value and is classified in Level 1. Corporate fixed income securities and certain governmental securities utilize pricing that may involve estimation using similar securities or trade dates and are classified in Level 2. Fair values for shares in registered mutual funds and exchange-traded funds are based on published share prices and classified in Level 1.

In determining fair value, the Town utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible.

### ***1-E Receivables***

Receivables recorded in the financial statements represent amounts due to the Town at December 31. They are aggregated into a single accounts receivable (net of allowance for uncollectibles) line for certain funds and aggregated columns. They consist primarily of taxes, billing for charges, and other user fees.

### ***1-F Capital Assets***

Capital assets include property, plant, and equipment, infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), and intangible assets (i.e. easements) which are reported in the applicable governmental activity's column in the government-wide financial statements. The accounting and reporting treatment applied to capital assets associated with a fund are determined by the fund's measurement focus. General capital assets are assets of the Town as a whole. When purchased, such assets are recorded as expenditures in a governmental fund and capitalized as assets in the government-wide Statement of Net Position.

Capital assets are defined by the Town as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of one year. Such assets are carried at historical cost or estimated historical cost. When the cost of the capital assets cannot be determined from available records, estimated historical cost is used. Donated capital assets received on or prior to June 15, 2015 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 15, 2015 are recorded at acquisition value.

**TOWN OF FREMONT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

The costs of normal maintenance and repairs are charged to operations as incurred. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Capital assets of the Town are depreciated using the straight-line method over the following estimated useful lives:

<b>Capital Asset Classes:</b>	<u><b>Years</b></u>
Land improvements	15-20
Buildings and building improvements	15-50
Machinery, equipment, and vehicles	6-20
Infrastructure	15-20

***1-G Interfund Transfers***

Interfund transfers represent flows of assets without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making the transfers and other financing sources in the funds receiving the transfers. In the government-wide financial statements, all interfund transfers between individual governmental funds have been eliminated.

***1-H Property Taxes***

Property tax billings occur semi-annually and are based on the assessed inventory values as of April 1 of each year in accordance with RSA 76:15-a, *Semi-Annual Collection of Taxes in certain Towns and Cities*. Warrants for the year were issued on May 24, 2018 and November 25, 2018, and due on July 2, 2018 and December 2, 2018. Interest accrues at a rate of 12% on bills outstanding after the due date and 18% on tax liens outstanding.

In connection with the setting of the tax rate, Town officials with the approval of the Department of Revenue Administration, establish and raise through taxation an amount for tax abatement and refunds, known as overlay. This amount is reported as a reduction in tax revenue and is adjusted by management for any reserve for uncollectable at year-end. The property taxes collected by the Town include taxes levied for the State of New Hampshire, Fremont School District, and Rockingham County, which are remitted to these entities as required by law.

The Town net assessed valuation as of April 1, 2018 utilized in the setting of the tax rate was as follows:

For the New Hampshire education tax	\$ 400,888,730
For all other taxes	\$ 409,848,930

The tax rates and amounts assessed for the year ended December 31, 2018 were as follows:

	Per \$1,000 of Assessed Valuation	Property Taxes Assessed
Municipal portion	\$4.77	\$ 1,956,681
School portion:		
State of New Hampshire	\$2.42	969,007
Local	\$21.10	8,645,885
County portion	\$1.11	456,301
Total	<u>\$29.40</u>	<u>\$ 12,027,874</u>

***1-I Accounts Payable***

Accounts payable represent the gross amount of expenditures or expenses incurred as a result of normal operations, but for which no actual payment has yet been issued to vendors/providers as of December 31, 2018.

**TOWN OF FREMONT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

***1-J Deferred Outflows/Inflows of Resources***

*Deferred outflows of resources*, a separate financial statement element, represents a consumption of net position or fund balance that applies to a future period(s) and thus will not be recognized as an outflow of resources (expenses/expenditure) until then.

*Deferred inflows of resources*, a separate financial statement element, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

***1-K Long-term Obligations***

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities.

***1-L Defined Benefit Pension Plan***

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date* and GASB Statement No. 82 *Pension Issues – an amendment of GASB Statement No. 67, No. 68 and No.73* requires participating employers to recognize their proportionate share of collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense, and schedules have been prepared to provide employers with their calculated proportionate share of these amounts. The collective amounts have been allocated based on employer contributions during the respective fiscal years. Contributions from employers are recognized when legally due, based on statutory requirements.

The schedules prepared by New Hampshire Retirement System, and audited by the plan's independent auditors, require management to make a number of estimates and assumptions related to the reported amounts. Due to the inherent nature and uncertainty of these estimates, actual results could differ, and the differences may be material.

***1-M Postemployment Benefits Other Than Pensions***

***New Hampshire Retirement System Plan*** – For the purposes of measuring the total other postemployment benefit (OPEB) liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Hampshire Retirement System OPEB Plan (the plan) and additions to/deductions from the plan's fiduciary net position has been determined on the same basis as they are reported by the New Hampshire Retirement System. For this purpose, the plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except money market investments and participating interest earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

***Single Employer Plan*** – The Town maintains a single employer plan but has not obtained an actuarial report calculating the other postemployment benefit liability, deferred outflows of resources, and deferred inflows of resources in accordance with Government Accounting Standards Board pronouncement No. 75.

***1-N Net Position/Fund Balances***

***Government-wide Statements*** – Equity is classified as net position and displayed in three components:

**Net investment in capital assets** – Consists of capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds that are attributable to the acquisition, construction, or improvement of those assets.

**Restricted net position** – Results when constraints placed on net position use are either externally imposed by a third party (statutory, bond covenant, or granting agency) or are imposed by law through constitutional provisions or enabling legislation.

**Unrestricted net position** – Consists of net position not meeting the definition of the preceding categories. Unrestricted net position is often subject to constraints imposed by management which can be removed or modified.

**TOWN OF FREMONT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

**Fund Balance Classifications** – GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, provides more clearly defined fund balance categories to make sure the nature and extent of the constraints placed on a government's fund balances are more transparent. The following classifications describe the relative strength of the spending constraints:

**Nonspendable** – Amounts that cannot be spent because they are either (a) not in spendable form (such as prepaid items, inventory or tax deeded property subject to resale); or (b) are legally or contractually required to be maintained intact.

**Restricted** – Amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

**Committed** – Amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the legislative body (Town Meeting). These amounts cannot be used for any other purpose unless the legislative body removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

**Assigned** – Amounts that are constrained by the Town's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Selectmen through the budgetary process.

**Unassigned** – Amounts that are available for any purpose. Positive amounts are reported only in the general fund.

When multiple net position/fund balance classifications are available for use, it is the government's policy to utilize the most restricted balances first, then the next most restricted balance as needed. When components of unrestricted fund balance are used, committed fund balance is depleted first followed by assigned fund balance. Unassigned fund balance is applied last.

In accordance with the Town's Fund balance policy, the Board will maintain an appropriate level of unassigned fund balance following guidelines established by the New Hampshire Government Finance Officers Association (GFOA), which are as follows:

1. 5% to 15 % of regular general fund operating revenue
2. 8% to 17% of regular general fund operating expenditures

### ***1-O Use of Estimates***

The financial statements and related disclosures are prepared in conformity with accounting principles generally accepted in the United States. Management is required to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the period reported. These estimates include assessing the collectability of accounts receivable and the useful lives of capital assets, among others. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from estimates.

## ***NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY***

### ***2-A Budgetary Information***

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the Town's operations. At its annual meeting, the Town adopts a budget for the current year for the general fund. Except as reconciled below, the budget was adopted on a basis consistent with US generally accepted accounting principles.

Management may transfer appropriations between operating categories as deemed necessary, but expenditures may not legally exceed budgeted appropriations in total. All annual appropriations lapse at year-end unless encumbered.

**TOWN OF FREMONT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year-end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures, and are therefore, reported as part of the assigned fund balance at year-end, and are carried forward to supplement appropriations of the subsequent year.

State statutes require balanced budgets but provide for the use of beginning unassigned fund balance to achieve that end. For the fiscal year 2018, \$100,000 of the beginning general fund unassigned fund balance was applied for this purpose.

**2-B Budgetary Reconciliation to GAAP Basis**

The Town employs certain accounting principles for budgetary reporting purposes that differ from a GAAP basis. The Statement of Revenues, Expenditures, and Changes in Fund Balance - Budgetary Basis presents the actual results to provide a comparison with the budget. The major difference between the budgetary basis and GAAP basis is as follows:

Encumbrances outstanding at year-end do not represent GAAP expenditures or liabilities but represent budgetary accounting controls. Governmental fund budgets are maintained on the modified accrual basis of accounting except that budgetary basis expenditures include purchase orders and commitments (encumbrances) for goods or services not received at year-end. Encumbrances are recorded to reserve a portion of fund balance in the governmental fund types for commitments for which no liability exists.

The following reconciles the general fund budgetary basis to the GAAP basis:

Revenues and other financing sources:	
Per Exhibit D (budgetary basis)	\$ 3,449,682
Adjustment:	
Basis difference:	
To record miscellaneous income of the blended funds	5,560
To eliminate transfers between blended funds	(62,654)
Change in deferred tax revenue relating to 60-day revenue recognition	1,806
Per Exhibit C-3 (GAAP basis)	<u>\$ 3,394,394</u>
Expenditures and other financing uses:	
Per Exhibit D (budgetary basis)	\$ 3,355,938
Adjustment:	
Basis differences:	
Encumbrances, beginning	122,990
Encumbrances, ending	(47,669)
GASB Statement No. 54:	
To record expenditures of the blended funds during the year	1,387
To recognize transfer between blended expendable trust funds and general fund	105,000
Per Exhibit C-3 (GAAP basis)	<u>\$ 3,537,646</u>

**2-C Accounting Change/Restatement**

Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (OPEB), was implemented during fiscal year 2018. The revised requirements establish new financial reporting requirements for state and local governments which provide their employees with OPEB benefits, including additional note disclosure and required supplementary information. In addition, GASB Statement No. 75 requires a state or local government employer to use the entry age normal actuarial cost method and requires deferred outflows of resources and deferred inflows of resources which arise from other types of events related to OPEB to be recognized.

**TOWN OF FREMONT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

Beginning net position for governmental activities was restated to retroactively report the change in valuation of the beginning total OPEB liability, deferred inflows and outflows of resources, as follows:

	State OPEB
Change in total OPEB liability under current standards, January 1	\$ (71,057)
Initial balance of deferred outflows of resources	8,167
Initial balance of deferred inflows of resources	(237)
Cumulative restatement related to GASB No. 75 implementation (see Note 2-C)	<u>\$ (63,127)</u>

**DETAILED NOTES ON ALL FUNDS**

**NOTE 3 – CASH AND CASH EQUIVALENTS**

The Town's deposits covered by federal depository insurance (FDIC) or by collateral held by the Town's agent in the Town's name. The FDIC currently insures the first \$250,000 of the Town's deposits at each financial institution, per case custodian. Deposit balances over \$250,000 are insured by the collateral. As of year-end, the carrying amount of the Town's deposits was \$8,260,433 and the bank balances totaled \$8,380,834.

Cash and cash equivalents reconciliation:

Cash per Statement of Net Position (Exhibit A)	\$ 6,949,001
Cash per Statement of Net Position - Fiduciary Funds (Exhibit E-1)	1,311,432
Total cash and cash equivalents	<u>\$ 8,260,433</u>

**NOTE 4 – INVESTMENTS**

Note 1-D describes statutory requirements covering the investment of the Town funds. The Town holds investments that are measured at fair value on a recurring basis. Because investing is not a core part of the Town's mission, the Town determines that the disclosures related to these investments only need to be disaggregated by major type. The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The Town has the following recurring fair value measurements and maturities as of December 31, 2018:

	Valuation Measurement Method	1-5 Years
Investments type:		
Certificates of deposit	Level 1	<u>\$ 42,175</u>

**NOTE 5 – TAXES RECEIVABLE**

Taxes receivable represent the amount of current and prior year taxes which have not been collected as of December 31, 2018. The amount has been reduced by an allowance for an estimated uncollectible amount of \$10,000. Taxes receivable by year are as follows:

	As reported on:	
	Exhibit A	Exhibit C-1
Property:		
Levy of 2018	\$ 242,207	\$ 242,207
Unredeemed (under tax lien):		
Levy of 2017	54,259	54,259
Levies of 2016 and prior	27,402	27,402
Less: allowance for estimated uncollectible taxes	(10,000) *	-
Net taxes receivable	<u>\$ 313,868</u>	<u>\$ 323,868</u>

\*The allowance for uncollectible property taxes is not recognized under the modified accrual basis of accounting (Exhibit C-1 and C-3) due to the 60-day rule as explained in Note 1-B. However, the allowance is recognized under the full accrual basis of accounting (Exhibits A and B).

Net book value, all governmental activities capital assets	\$ 8,688,138	\$ 318,481	\$ 9,006,619

Depreciation expense was charged to functions of the Town based on their usage of the related assets. The amounts allocated to each function are as follows:

General government	\$ 57,574
Public safety	145,898
Highways and streets	305,894
Culture and recreation	36,629
Total depreciation expense	\$ 545,995

**NOTE 7 – INTERFUND TRANSFERS**

The composition of interfund transfers in the amount of \$2,000 for the year ended December 31, 2018 consists of a transfer from the nonmajor permanent fund to the general fund.

During the year, transfers are used to (1) move revenues from the fund with collection authority to the fund responsible for expenditure and (2) move general fund resources to provide an annual subsidy.

**NOTE 8 – INTERGOVERNMENTAL PAYABLES**

Amounts due to other governments of \$6,237,990 at December 31, 2018 consist of:

General fund:	
Balance of the FY 2018-19 district assessment due to the Fremont School District	\$ 5,614,892
Agency fund:	
Balance of capital reserve funds due to the Fremont School District	623,098
Total intergovernmental payables due	\$ 6,237,990

**NOTE 9 – DEFERRED OUTFLOWS/INFLOWS OF RESOURCES**

Deferred outflows of resources at December 31, 2018 consist of amounts related to pensions totaling \$259,475, and amounts related to OPEB totaling \$19,595; see Notes 11 and 12, respectively, for further discussion on these amounts.

Deferred inflows of resources are as follows:

	Government- wide	General Fund

**NOTE 11 – DEFINED BENEFIT PENSION PLAN**

**Plan Description** – The New Hampshire Retirement System (NHRS or the System) is a public employee retirement system that administers one cost-sharing multiple-employer defined benefit pension plan (Pension Plan), a component unit of the State of New Hampshire, as defined in Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans* – an amendment of GASB Statement No. 25. The Pension Plan was established in 1967 by RSA 100-A:2 and is qualified as a tax-exempt organization under Sections 401(a) and 501(a) of the Internal Revenue Code. The Pension Plan is a contributory, defined benefit plan providing service, disability, death and vested retirement benefits to members and their beneficiaries. Substantially all full-time state employees, public school teachers and administrators, permanent firefighters and permanent police officers with in the State are eligible and required to participate in the Pension Plan. The System issues a publicly available financial report that may be obtained by writing the New Hampshire Retirement System, 54 Regional Drive, Concord, NH 03301.

**Benefits Provided** – The Pension Plan is divided into two membership groups. State and local employees and teachers belong to Group I. Police and firefighters belong to Group II. All assets are held in a single trust and available to pay retirement benefits to all members.

Group I members at age 60 or 65 (for members who commence service after July 1, 2011) qualify for a normal service retirement allowance based on years of creditable service and average final salary for the highest of either three or five years, depending on when their service commenced. The yearly pension amount is 1/60 or 1.667% of average final compensation (AFC) multiplied by years of creditable service. At age 65, the yearly pension amount is recalculated at 1/66 or 1.515% of AFC multiplied by years of creditable service.

Group II members who are age 60, or members who are at least age 45 with at least 20 years of creditable service, can receive a retirement allowance at a rate of 2.5% of AFC for each year of creditable service, not to exceed 40 years. Members commencing service on or after July 1, 2011 or members who have nonvested status as of January 1, 2012 can receive a retirement allowance at age 52.5 with 25 years of service or age 60. The benefit shall be equal to 2% of AFC times creditable service up to 42.5 years. However, a member who commenced service on or after July 1, 2011 shall not receive a retirement allowance until attaining the age of 52.5, but may receive a reduced allowance after age 50 if the member has at least 25 years of creditable service where the allowance shall be reduced, for each month by which the member attains 52.5 years of age by 1/4 of 1% or age 60.

Members of both groups may qualify for vested deferred allowances, disability allowances and death benefit allowances, subject to meeting various eligibility requirements. Benefits are based on AFC or earnable compensation and/or service.

**Contributions** - The System is financed by contributions from both the employees and the Town. Member contribution rates are established and may be amended by the State legislature while employer contribution rates are set by the System trustees based on an actuarial valuation. All employees are required to contribute 7% of earnable compensation. For fiscal year 2018, the Town contributed 25.33% for police, 27.79% for fire and 11.08% for other employees. The contribution requirement for the fiscal year 2018 was \$70,965, which was paid in full.

**Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions** – At December 31, 2018 the Town reported a liability of \$808,481 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating towns and school districts, actuarially determined. At June 30, 2018, the Town's proportion was 0.02% which was an increase of 0.01% from its proportion measured as of June 30, 2017.

**TOWN OF FREMONT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

For the year ended December 31, 2018, the Town recognized pension expense of \$128,078. At December 31, 2018 the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in proportion	\$ 152,398	\$ 4,465
Changes in assumptions	55,951	-
Net difference between projected and actual investment earnings on pension plan investments	-	18,709
Differences between expected and actual experience	6,453	6,546
Contributions subsequent to the measurement date	44,673	-
Total	<u>\$ 259,475</u>	<u>\$ 29,720</u>

The \$44,673 reported as deferred outflows of resources related to pensions results from the Town contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending December 31,	
2019	\$ 83,243
2020	75,873
2021	14,197
2022	11,768
2023	-
Thereafter	-
Totals	<u>\$ 185,081</u>

**Actuarial Assumptions** – The collective total pension liability was determined by a roll forward of the actuarial valuation as of June 30, 2017, using the following actuarial assumptions which, accordingly apply to 2018 measurements:

Inflation:	2.5%
Salary increases:	5.6% average, including inflation
Wage inflation	3.25%
Investment rate of return:	7.25% net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 employee generational mortality tables for males and females, adjusted for mortality improvements using Scale MP-2015, based on last experience study.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2010 – June 30, 2015.

**Long-term Rates of Return** – The long-term expected rate of return on pension plan investment was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rate of return net of investment expenses by the target asset allocation percentage and by adding expected inflation.

**Discount Rate** – The discount rate used to measure the collective total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. For purposes of the projection, member contributions and employer service cost contributions are projected based on the expected payroll of current members only. Employer contributions are determined based on the Pension Plan's actuarial funding policy as required by RSA 100-A:16. Based on those assumptions, the Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on Pension Plan investment was applied to all periods of projected benefit payments to determine the collective total pension liability.

**Sensitivity of the Town's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** – The following table presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.25% as well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.25%) or 1-percentage point higher (8.25%) than the current rate:

Actuarial Valuation Date	1% Decrease 6.25%	Current Single Rate Assumption 7.25%	1% Increase 8.25%

**NOTE 12 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS**

**12-A New Hampshire Retirement System (NHRS)**

**Plan Description** – The New Hampshire Retirement System (NHRS or the System) administers a cost-sharing multiple-employer other postemployment benefit plan medical subsidy healthcare plan (OPEB Plan). For additional system information, please refer to the 2018 Comprehensive Annual Financial Report, which can be found on the system’s website at [www.nhrs.org](http://www.nhrs.org).

**Benefits Provide** - Benefit amounts and eligibility requirements for the OPEB Plan are set by state law (RSA 100-A:52, RSA 100-A:52-a and RSA 100-A:52-b), and members are designated in statute by type. The four membership types are Group II, Police Officers and Firefighters; Group I, Teachers; Group I, Political Subdivision Employees; and Group I, State Employees. The OPEB Plan provides a medical insurance subsidy to qualified retired members. The medical insurance subsidy is a payment made by NHRS to the former employer or its insurance administrator toward the cost of health insurance for a qualified retiree, his/her qualified spouse, and his/her certified dependent children with a disability who are living in the household and being cared for by the retiree. If the health insurance premium amount is less than the medical subsidy amount, then only the health insurance premium amount will be paid. If the health insurance premium amount exceeds the medical subsidy amount, then the retiree or other qualified person is responsible for paying any portion that the employer does not pay.

Group I benefits are based on creditable service, age and retirement date. Group II benefits are based on hire date, age and creditable service. The OPEB plan is closed to new entrants.

Maximum medical subsidy rates paid during fiscal year 2018 were as follows:

For qualified retirees not eligible for Medicare, the amounts were \$375.56 for a single-person plan and \$751.12 for a two-person plan.

For those qualified retirees eligible for Medicare, the amounts were \$236.84 for a single-person plan and \$473.68 for a two-person plan.

**Contributions** – The OPEB Plan is funded by allocating to the 401(h) subtrust the lesser of: 25% of all employer contributions made in accordance with RSA 100-A:16 or the percentage of employer contributions determined by the actuary to be the minimum rate necessary to maintain the benefits provided under RSA 100-A:53-b, RSA 100-A:53-c, and RSA 100-A:53-d. For fiscal year 2018, the minimum rates determined by the actuary to maintain benefits were the lesser of the two options and were used to determine the employer contributions due to the 401(h) subtrust. The State Legislature has the authority to establish, amend and discontinue the contribution requirements of the OPEB Plan. Administrative costs are allocated to the OPEB Plan based on fund balances. For fiscal year 2018, the Town contributed 4.10% for police. The contribution requirement for the fiscal year 2018 was \$12,158, which was paid in full.

**OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB** – At December 31, 2018, the Town reported a liability of \$125,845 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Town’s proportion of the net OPEB liability was based on a projection of the Town’s long-term share of contributions to the OPEB plan relative to the projected contributions of all participating towns and school districts, actuarially determined. At June 30, 2018, the Town’s proportion was 0.03% which was an increase of 0.01% from its proportion measured as of June 30, 2017.

**TOWN OF FREMONT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

For the year ended December 31, 2018, the Town recognized OPEB expense of \$56,524. At December 31, 2018, the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in proportion	\$ 11,625	\$ -
Net difference between projected and actual investment earnings on OPEB plan investments	-	400
Differences between expected and actual experience	739	-
Contributions subsequent to the measurement date	7,231	-
Total	<u>\$ 19,595</u>	<u>\$ 400</u>

The \$7,231 reported as deferred outflows of resources related to OPEB results from the Town contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year Ending December 31,	
2019	\$ 12,239
2020	(125)
2021	(125)
2022	(25)
2023	-
Thereafter	-
Totals	<u>\$ 11,964</u>

**Actuarial Assumptions** – The total OPEB liability in this report is based on an actuarial valuation performed as of June 30, 2018 and a measurement date of June 30, 2017. The total OPEB liability was determined using the following actuarial assumptions applied to all periods included in the measurement, unless otherwise specified:

Price inflation:	2.5 % per year
Wage inflation:	3.25 % per year
Salary increases:	5.6 % average, including inflation
Investment rate of return:	7.25 % net of OPEB plan investment expense, including inflation
Health care trend rate:	Not applicable, given that the benefits are fixed stipends

Mortality rates were based on the RP-2014 healthy annuitant and employee generational mortality tables for males and females with credibility adjustments, adjusted for fully generational mortality improvements using Scale MP-2015, based on last experience study.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2010 – June 30, 2015.

**Long-term Rates of Return** – The long-term expected rate of return on OPEB plan investment was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rate of return net of investment expenses by the target asset allocation percentage and by adding expected inflation.

**Discount Rate** – The discount rate used to measure the total OPEB liability as of June 30, 2018 was 7.25%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made under the current statute RSA 100-A:16 and that plan member contributions will be made under RSA 100-A:16. Based on those assumptions, the OPEB Plan's fiduciary net position was projected to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB Plan investments was applied to all periods of projected benefit payments to determine the collective total OPEB liability.

**Sensitivity of the Town's Proportionate Share of the OPEB Liability to Changes in the Discount Rate** – The following table presents the Town's proportionate share of the OPEB liability calculated using the discount rate of 7.25% as well as what the Town's proportionate share of the OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.25%) or 1-percentage point higher (8.25%) than the current rate:

June 30, 2018	\$ 130,980	\$ 125,845	\$ 111,461

**Sensitivity of the Town's Proportionate Share of the OPEB Liability to Changes in the Healthcare Cost Trend Assumption** – GASB No. 75 requires the sensitivity of the OPEB liability to the healthcare cost trend assumption. Since the medical subsidy benefits are fixed stipends, there is no sensitivity to changes in the healthcare cost trend assumption.

**OPEB Plan Fiduciary Net Position** – Detailed information about the OPEB plan's fiduciary net position is available in the separately issued New Hampshire Retirement System Cost-Sharing Multiple Employer Defined Benefit OPEB Plan financial report.

**12-B Town of Fremont Retiree Health Benefit Program**

The Town provides postemployment benefit options for health care to eligible retirees, terminated employees, and their dependents in accordance with the provisions of various employment contracts. The Governmental Accounting Standards Board (GASB) issued Statement No. 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* in 2015. GASB Statement No. 75 requires state and local government employers to recognize the net OPEB liability and the OPEB expense on their financial statements, along with the related deferred outflows and inflows of resources. The Town has not fully implemented GASB Statement No. 75 at December 31, 2018, or contracted with an actuarial firm to assist in evaluating the impact of this new standard on the Town. The amounts that should be recorded as the net OPEB liability and the OPEB expense is unknown.

**NOTE 17 – RISK MANAGEMENT**

The Town is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or natural disasters. During fiscal year 2018, the Town was a member of the New Hampshire Public Risk Management Exchange (Primex<sup>3</sup>) Workers' Compensation and Property/Liability Programs.

The New Hampshire Public Risk Management Exchange (Primex<sup>3</sup>) Workers' Compensation and Property/Liability Programs are pooled risk management programs under RSAs 5-B and 281-A. Coverage was provided from January 1, 2018 to December 31, 2018 by Primex<sup>3</sup>, which retained \$1,000,000 of each workers' compensation loss, \$500,000 of each liability loss, and \$200,000 of each property loss. The Board has decided to self-insure the aggregate exposure and has allocated funds based on actuarial analysis for that purpose. The workers' compensation section of the self-insurance membership agreement permits Primex<sup>3</sup> to make additional assessments to members should there be a deficiency in contributions for any member year, not to exceed the member's annual contribution. GASB Statement No. 10 requires members of a pool with a sharing risk to disclose if such an assessment is probable, and a reasonable estimate of the amount, if any. At this time, Primex<sup>3</sup> foresees no likelihood of any additional assessment for this or any prior year.

The Town continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

***NOTES TO THE BASIC FINANCIAL STATEMENTS***  
***AS OF AND FOR THE FISCAL YEAR ENDED***  
***DECEMBER 31, 2018***

***NOTE 18 – RELATED PARTY TRANSACTIONS***

The elected Road Agent owns a company that is contracted with the Town to perform highway and street work. The total invoices paid was \$15,465. Further it is noted that additional highway and street work is performed by individuals related to the Road Agent an amount totaling \$36,750. It was noted that all invoices were subject to and compiled with the Town's purchasing policies and procedures. Further, it should be noted that any contracts with contractors are subjected to the same authorization process with the Board of Selectmen approving all contracts and subsequent payments to contractors.

***NOTE 19 – SUBSEQUENT EVENTS***

Subsequent events are events or transactions that occur after the balance sheet date, but before the financial statements are issued. Recognized subsequent events are events or transactions that provided additional evidence about conditions that existed at the balance sheet date, including the estimates inherent in the process of preparing the financial statements. Nonrecognized subsequent events are events that provide evidence about conditions that did not exist at the balance sheet date, but arose after the date. Management has evaluated subsequent events through December 31, 2019, the date the December 31, 2018 financial statements were available to be issued, and no events occurred that require recognition or disclosure.
