

Report of the Building Inspector

2019 has brought new challenges for me as your Building Inspector as I have taken a full-time position in the neighboring Town of Raymond but will be staying on here until such time as a suitable candidate has been hired and trained. I have found Fremont to be a wonderful place to work and feel I have become part of this community. I've encountered many new experiences here, The Grass Drags, The Renaissance Faire and even a couple of Pow Wow's.

More importantly, the people whom I have met along the way have treated me with the utmost respect and many have become my friends. Heidi, her staff and The Board of Selectmen have respected my decision to move on and shown me a lot of support and Bob Meade, as always, has been a phone call or email away when I needed assistance.

It has truly been a pleasure working in this Town. Thank you.

Please see the report below for the final numbers for 2019, including permits issued and revenue collected.

Respectfully submitted,

Gregg Arvanitis
Building Inspector/Code Enforcement Officer
