

Report of Forest Fire Warden and State Forest Ranger

The Town of Fremont's Forest Fire Warden, Fremont Fire Rescue Department, and the State of New Hampshire Division of Forests & Lands, work collaboratively to reduce the risk and frequency of wildland fires in New Hampshire. To help us assist you, please contact the Fremont Fire Rescue Department to determine if a permit is required before doing ANY outside burning. You can reach the Duty Officer by calling Raymond Dispatch at 895 4222.

Under State law (RSA 227-L:17) a fire permit is required for all outside burning, unless the ground is completely covered with snow. The New Hampshire Department of Environmental Services also prohibits the open burning of household waste. Citizens are encouraged to contact the local fire department or DES at 1-800-498-6868 or www.des.state.nh.us for more information. Safe open burning requires diligence and responsibility. Help us to protect New Hampshire's forest resources. For more information please contact the Division of Forests & Lands at (603) 271-2214, or online at www.nhdf.org.

This past fire season had a slightly lower number of fires, as well as lower number of acres burned than the 5 year average. What made this fire season somewhat unusual was that it lasted most of the summer. New Hampshire typically has a fairly active spring fire season and then the summer rains tend to dampen fire activity later in the season. This year virtually all areas of the state had fires throughout the summer due to the periodic dry spells throughout the season.

As has been the case over the last few years, state budget constraints have limited the staffing of our statewide system of 16 fire lookout towers to Class III or higher fire danger days. Despite the reduction in the number of days staffed, our fire lookouts are credited with keeping most fires small and saving several structures due to their quick and accurate spotting capabilities. The towers fire spotting was supplemented by contracted aircraft and the NH Civil Air Patrol when the fire danger was especially high. The largest fire for the season was 10.3 acre fire in Charlestown.

Many homes in New Hampshire are located in the wildland urban interface, which is the area where homes and flammable wildland fuels intermix. Several of the fires during the 2010 season threatened structures, a constant reminder that forest fires burn more than just trees. Homeowners should take measures to prevent a wildland fire from spreading to their home. Precautions include keeping your roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home free of flammable materials. Additional information and homeowner recommendations are available at www.firewise.org.

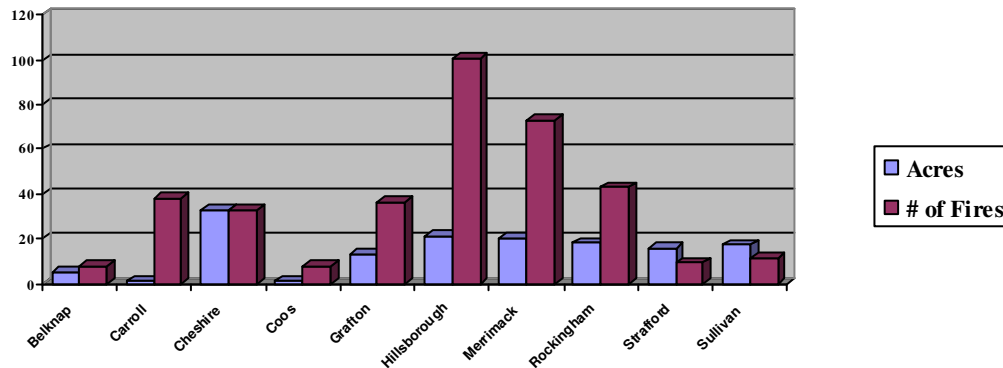

Please help Smokey Bear, your local fire department, and the state's Forest Rangers by being fire wise and fire safe!

2010 FIRE STATISTICS

(All fires reported as of November 2010)

(figures do not include fires under the jurisdiction of the White Mountain National Forest)

COUNTY STATISTICS		
County	Acres	# of Fires
Belknap	5	8
Carroll	1	38
Cheshire	33	33
Coos	1	8
Grafton	13	36
Hillsborough	21	101
Merrimack	20	73
Rockingham	18	43
Strafford	16	9
Sullivan	17	11

CAUSES OF FIRES REPORTED

Arson	3	Campfire	35	Children	13
Debris	146	Equipment	18	Lightning	4
Smoking	13	Misc	128		

*Misc. includes power lines, fireworks, electric fences, etc.

Year	Total Fires	Total Acres
2010	360	145
2009	334	173
2008	455	175
2007	437	212
2006	500	473

ONLY YOU CAN PREVENT WILDLAND FIRE!
