### Fremont NH – Congratulations for being such active recyclers!

The recyclable materials listed below were sent to market to be remanufactured into new products through your non-profit recycling organization, the Northeast Resource Recovery Association. **Avoided emissions:** Recycling uses much less energy than making products from virgin resources, and using less energy means fewer greenhouse gases emitted into the atmosphere! By recycling the materials shown, you have avoided about 96 tons of carbon dioxide emissions. This is the

equivalent of removing 20 passenger cars from the road for an entire year!
