Dear NRRA Member,

As a member of Northeast Resource Recovery Association (NRRA), your community has access to all the services of this first in the nation, 30-year-old recycling cooperative. Your member-driven organization provides you with:

- Up-to-date **Technical Assistance** in waste reduction and recycling;
- **Cooperative Marketing** to maximize pricing and **Cooperative Purchasing** to minimize costs.
- Current **Market Conditions** and Latest **Recycling Trends**;
- **Innovative Programs** (i.e. Dual Stream, Consolidation and Single Stream)
- **Educational and Networking Opportunities** through our Annual Recycling Conference, our new Bi-weekly "Full of Scrap" email news, monthly Marketing meetings, website, semi-annual newsletter and Fall Bus Tour;
- **School Recycling Club** - a program to assist schools to promote or advance their recycling efforts.

The membership has grown to include more than 400 municipalities, businesses and individuals in New Hampshire, Vermont, Massachusetts, Connecticut and Maine. NRRA, as a non-profit organization, is unique in that we do not charge a "brokerage fee" or work to maximize profit gains, but rather has a minimal "Co-op" Fee" which is re-invested into programs to further your recycling programs and solid waste reduction efforts in schools and municipalities.

Through your continued support and dedication, NRRA has assisted our members to recycle over 73,206 tons in fiscal year 2009-2010!

Please contact NRRA at 800-223-0150 / 603-736-4401 or visit our website at www.nrra.net

Town of Fremont, NH

Congratulations for being such active recyclers!

Below please find information on the positive impact this recycling has had on your environment.

The recyclable materials listed below were sent to market to be remanufactured into new products through your non-profit recycling cooperative, the Northeast Resource Recovery Association.

Recyclable Material	Amount Recycled In 2010	Environmental Impact! Here is <u>only one</u> benefit of using this recycled material rather than natural resources (raw materials) to manufacture new products.
Scrap Metal	20 tons	Conserved 20,375 pounds of coal!
