

REPORT OF THE OPEN SPACE COMMITTEE

Since its inception in 2003, the Fremont Open Space Committee has worked in conjunction with the Fremont Conservation Commission, the Board of Selectmen, and the residents of Fremont to ensure that Fremont's rural past as well as Fremont's future is properly protected.

During the last year the Fremont Open Space Committee has worked with the Rockingham Planning Commission through the Community Technical Assistance Program (CTAP) to assemble an Open Space Task Force in an effort to create a report for the Fremont Planning Board and the Board of Selectmen. The report identifies critical resources as well as open and undeveloped land in Fremont and will serve as a guide for future open space planning and land protection by defining where protection is most needed and most appropriate.

The Fremont Open Space Committee continues to study new opportunities to further protect special locations in Fremont. We hope to be able to offer additional activities and hope that residents continue to take advantage of the magnificent areas that belong to all of the residents of Fremont.

Respectfully Submitted,

The Fremont Open Space Committee

Selectmen bid farewell to retiring Selectman Gene Cordes in March 2009
Gene served on the Board of Selectmen for the past 18 years from 1991 - 2009.

L to R: Selectmen Donald Gates Jr, Brett Hunter, and Gene Cordes
