In 2009, Fremont was fortunate enough not to need our services.

Fundamental Principles of the International Red Cross / Red Crescent Movement:
Humanity * Impartiality * Neutrality * Independence * Voluntary Service * Unity * Universality

What we provide to the community:

Disaster Services: Disaster relief is provided at the local or national level to those affected by fire, floods, hurricanes and other natural disasters. Emergency needs of victims are met, including food, shelter, clothing and medical supplies.

Health and Safety: Lifesaving skills, safety and health education are taught to the community through programs such as First Aid, CPR, AED, Water Safety, Babysitters training, Life guard training, Learn to Swim, blood-borne pathogens.

Services to the Armed Forces: Emergency aid to military personnel, veterans and their families is one of the primary responsibilities of the ARC. It includes family counseling, emergency communication, travel arrangements and financial assistance.

Volunteer Services: The American Red Cross is 90% volunteer driven. There are many different ways to volunteer, such as Disaster Action Team members, CPR/First Aid Instructors, student interns, Senior Connect Ambassadors, grant writers, general office work, NH Red Cross VISTA members, etc.

Blood Services: Though our local Chapter is separate from the Blood Services center, we are all under the same “umbrella” of the National American Red Cross. The ARC provides half the nation’s blood supply. To find out more information about blood drives near you, click on blood services at

CASA of New Hampshire recruits, trains and supervises volunteer advocates to speak for the best interests of abused and neglected children in New Hampshire's court system. Every year, hundreds of New Hampshire children enter our court and foster care systems as victims of abuse or neglect. Each of these children needs and deserves a safe and permanent home. It is critical that one adult with no agenda other than to advocate for a child's best interests stands in her corner as decisions are made about her

future; one adult who will do his best to understand the people in and circumstances of her life; one adult who will advocate for a safe, nurturing, and permanent home. For one child, that might mean a return to a caring parent who has worked to change her home environment in order to ensure her child's future safety. For another, it might mean termination of parental rights and release for adoption. Either way, CASA of NH is there to give the child a strong and powerful voice in court.

CASA volunteers are appointed by judges to function as the voice of children aged 0- 18 in New Hampshire's courts. At any given time, CASA of NH provides personalized advocacy for some 1,000 young victims. This represents approximately 70% of the children involved in New Hampshire's child protection and juvenile justice systems.

Lamprey Health Care is a non-profit, community based primary health care organization providing medical services, social services, information and referral and senior citizen transportation, as well as transportation for the physically challenged in Rockingham County. Transportation services, medical services and information and referral services are provided to residents of Fremont.

The Senior Citizen Transportation Program operated by Lamprey Health Care is one of the most important services provided to residents of the area, and provides service to the elderly and physically challenged residents of this region. Access to transportation is critical to this population remaining independent. The busses provide necessary transportation for food, shopping, for medical appointments, the pharmacy and for recreational trips. Residents are picked up at their homes, and are assisted with bundles and with shopping if necessary.

The busses operated by this program are handicapped accessible. Special appointments, which cannot be incorporated into the specific routes serving your area, are arranged through the Transportation Coordinator and a group of volunteers. The Program almost operates as a “Friendly Callers” program in that the seniors who ride are in contact with the program, and if not, they are checked on necessary errands for their riders if they are unable to do them due to illness, etc. This program does a great deal toward keeping our elderly population healthy, independent and in their homes.

The medical services provided by Lamprey Health Care include primary medical care, health promotion, education, and social services. Increased capacity in both our Raymond and our Newmarket centers allows Lamprey Health Care to serve the residents of our local area in a timely and efficient manner. Medical care provided includes prenatal care, adult medicine, and geriatric medicine, as well as a wide range of health education activities and chronic disease management programs such as diabetes education and support.

- 2008 Services provided to Fremont: 399 patients made 1,515 visits to Lamprey Health Care and 44 rides were provided to Fremont seniors and adults with disabilities
